

Questions and Answers about Fostering a Greyhound for Kerry Greyhounds UK

What does fostering a greyhound involve?

Fostering involves looking after a greyhound in your own home until we can find a permanent home for him or her. Whilst you are fostering we will ask you to tell us about the dog so that we can find the best home to match the temperament of your foster dog. When a possible permanent home has been found we may ask you to take the dog to meet the people, or they may wish to visit the dog at your home if you are happy to do this.

How long will I have a foster dog for?

It just depends on how long it takes to find the right home for the dog. This could be a few days, or it could be a few months.

Will it cost me anything to foster? Will I be paid?

Kerry Greyhounds will cover all the costs of your foster dog including vet bills, dog food, and transport costs. We will provide all the things you need, unless you already have some of these or wish to provide them yourself. Every foster dog comes with a collar, an identity disc, a muzzle and a lead. You also need dog food and bowls, a bed and some toys/chews. Some fosterers buy the dog food, this is very welcome, but this is not expected, as we will meet all your costs. You will be a volunteer so we are not able to offer payment for fostering.

Can I foster more than one dog?

We do have fosterers who foster more than one dog; it depends on your individual circumstances, eg other pets, and your experience with dogs. If you want to foster more than one dog we will talk with you about this at the home visit.

Can I adopt my foster dog if I want to?

This is usually possible provided we are not already talking to someone else about adopting your foster dog. It may mean though that you cannot, or would not want to continue to foster other dogs, so if you enjoy helping dogs through fostering this needs a lot of thought.

What happens if I have a problem with a dog?

We will give you support and advice about your foster dog, and help with any problems. Most foster dogs have come from kennels and have never lived in a house before so they need time to settle and to get used to a very different life. Most dogs settle and get into a routine quite quickly.

Will my foster dog be house trained?

Most greyhounds are used to life in kennels so they are 'kennel trained', which means they are clean in their kennels. You need to reinforce this routine by putting the dog outside frequently at first and praising them when they toilet. Most adult dogs are usually clean in the house quite quickly but some take a bit longer and you do need to expect a few accidents at first.

Can I foster if I go out to work?

Yes, if your work pattern or your circumstances are quite flexible. When a new dog arrives he or she does need at least a few days to settle in before they can be left, so fostering does not suit everyone who goes out to work. It depends on your individual circumstances so please contact us to chat about this.

Can I foster if I have children?

Only if your children are over 10 and as long as we are satisfied that you understand the need for constant and close supervision of dogs around children, and that you will provide this. It will also depend upon the children themselves and how dog savvy they are. You also need to understand that the dog will not have had a thorough assessment before you foster him or her. That is part of the role of the fosterer.

Can I foster if I'm retired? Or if I have a problem with my health?

Yes, greyhounds can be suitable dogs for people of all ages, and levels of fitness. If you have a health issue you will need to talk to us about your particular circumstances. You need to be able to give your foster dogs two walks a day of at least 30 minutes. Greyhounds enjoy longer walks as well but it is a myth that they need to walk miles and miles. Many are quite lazy dogs!

Can I foster a greyhound if I have a cat?

Yes, we do have greyhounds who can live with cats, we also sometimes have puppies/young dogs who have not been trained for racing and who can live with cats. However, we do often have permanent homes waiting for greyhounds that can live with cats so sometimes these dogs do not need to go to a foster home first.

Will my foster dog need to wear a muzzle?

Yes, all foster dogs MUST wear a muzzle when in a public place, as this is a requirement of our insurance. You also need to keep your foster dog on a lead when out. If an accident happens and you do not have the dog muzzled or on a lead, any claims/costs related to the incident will be YOUR responsibility.

How do I apply to have a foster dog?

The first step is to fill in our fostering application form. This is on our website or can be sent to you by email, or in the post if you prefer. When you have returned the form, one of us will come to your home to meet you for a home visit, to see where the dog will live, and to assess the suitability of your home, garden & fencing and to talk to you about fostering. It's also an opportunity for you to ask any questions. You can also have a chat with someone who is already fostering if you'd like to.
